

Industry Training

Heavy Equipment Operator Program (200 hours)

The Heavy Equipment Operator Program provides knowledge and skill development in operating two of the following pieces of heavy equipment:

backhoe • crawlertractor • excavator • front loader • motor grader

In addition to the practical experience gained behind the controls, the student must also successfully complete classroom theory courses and exams. Students will also receive two safety certificates: St. John's First Aid/CPR Level "A" & AED and Ground Disturbance Level II.

Graduates may find employment operating heavy equipment in the construction industry, pipeline and oil patches, forestry industry, or rural and urban municipalities.

If you are presently collecting EI benefits, there may be funding available to you to cover some or all of the tuition. Contact your local Southeast Regional College campus to find out more.

Admission Requirements:

Valid Class 5 driver's license

Assiniboia Apr 25 – May 18
